

Episode 1

Northumberland Zoo Part 1

Armour Challenge!

In Episode 1 we met the Armadillo's at Northumberland Zoo. They were amazing little creatures who had armour on their back to protect themselves from other animals.

Their armour is made up of the same stuff as your hair and nails are made off - just they use it for different reasons.

Your Challenge is to design and make your own armour using things you have around your house. It could be made of anything! Sheets, cardboard, paper or tin foil and could be held together with string, sticky tape or glue!

Be creative!

We would like you to share your creations with us by sending a picture of them to us on email to

info@leadinglink.co.uk

There will be prizes to be won and we will be sharing all of your hard work during future episodes!

You could have your work shown on the telly!

We look forward to hearing from you 😊
